| Maximum marks | 1 mark                                                       |

## Project Demo Planning

The project demonstration was planned to present the key features of the Smart Agricultural Production Optimization Engine (OptiCrop) in a clear and organized manner. The demo includes a brief introduction, system overview, live demonstration of crop prediction and fertilizer recommendation, result analysis, and a short conclusion. This plan ensures that all major functionalities are explained effectively within the allotted time.

| S.No | Demo Section               | Description                                              | Duration (mins) | Responsible Member |
|------|----------------------------|----------------------------------------------------------|-----------------|--------------------|
| 1.   | Introduction               | Explain the project objectives and agricultural problems | 2               | Team Leader        |
| 2.   | System Overview            | Explain OptiCrop architecture and workflow               | 3               | Team Member        |
| 3.   | Live Feature Demonstration | Show crop prediction and fertilizer recommendation       | 6               | Team Member        |
| 4.   | Result Analysis            | Explain prediction results and optimization suggestions  | 3               | Team Member        |
| 5.   | Future Enhancements        | Explain future scope of the project                      | 2               | Team Leader        |
| 6.   | Conclusion                 | Summarize project outcomes                               | 2               | Team Leader        |

# Demo Flow Summary

| Step | Activity                         | Notes                                                             |
|------|----------------------------------|-------------------------------------------------------------------|
| 1.   | Introduction & Problem Statement | Explain challenges faced by farmers                               |
| 2.   | Solution Overview                | Introduce the OptiCrop system and its features                    |
| 3.   | Live Feature Demonstration       | Show crop prediction, fertilizer recommendation, and optimization |
| 4.   | Q&A Session                      | Answer evaluator questions confidently                            |
