Communication Plan

Effective communication played an important role in the successful development of the Smart Agricultural Production Optimization Engine (OptiCrop) project. Team members communicated regularly to discuss project progress, assign tasks, resolve technical issues, and review completed work. Communication was carried out through WhatsApp, Google Meet, and Google Docs to ensure smooth collaboration and timely completion of the project. Weekly progress reviews and regular discussions with the mentor helped improve the quality of the project and ensured that all objectives were achieved within the planned schedule.

This paragraph is suitable for the Communication Plan section and matches the style expected in project documentation.
